Look what Sears has done

The Winnie-the-Pooh "idea" is really several great ideas— wonderful memories of childhood, enchanting characters and, at Sears, a name for an exclusive collection of children's apparel that has become justifiably famous for its durability, color-coordination, and easy care.

Now Sears has "asked" Pooh to help us in even another way. He and his friends are so delightful we thought they could add a little fun and enjoyment to this Wish Book for 1972. Their charm is as heart warming as the Season itself so we think they're perfect for the role.

On portions of the next twelve pages is some interesting folklore, whimsically illustrated by Walt Disney Productions, about how "our" Santa Claus looks to children of other lands. He looks different, to be sure. He's known by different names and he delivers his presents in different ways. But these things really don't matter, for wherever Christmas is celebrated he represents one of the great and timeless traditions of this holiday.

Now Christmas in Holland
is a very special time for children
just like it is here in America.
But instead of Santa Claus coming to town
on a sleigh, the little Dutch boys and girls
wait for good St. Nicholas.

Because Holland is almost completely
surrounded by water and has
many fine harbors, St. Nicholas
arrives on a big steamship.
He's dressed in a beautiful Bishop's
robe and is accompanied by his
assistant named Peter, who carries
the gifts.

St. Nicholas then mounts a great white
horse and, with Peter at his side,
rides throughout the Dutch countryside
giving candy and toys
to all the good children
of Holland.

For the little children of Spain, the Three Wise Men are their Santa Claus. These great kings of the Orient never fail to come to Spain at Christmastime bringing gifts just as they did when they visited Bethlehem many, many years ago.

The boys and girls fill their shoes with straw and place them out on their doorsteps. The straw is for the camels that carry the Wise Men on their long journey.

When the children awake early in the morning, they find to their amazement that the straw is gone and in its place are toys and fruit. The children know then that the Wise Men had come during the night.

The children of Italy
have their Santa Claus, too.
But instead of a jolly fat man
with a white beard and a funny red suit,
the Italian Santa is a kind old lady
who is really a witch—
a witch that loves children.
Her name is La Befana.

On the night before the 12th day
of Christmas, all the little girls and boys
prepare for the arrival of
La Befana. Before they go to bed,
they place their shoes
next to the miniature Manger
that every Italian family
displays at Christmastime.

Then, sometime during the night,
La Befana flies through the window
and fills the children's shoes
with toys and candies
and maybe a few pieces
of coal if any of the youngsters
had been bad.

In Sweden where the winters are long and cold, there is a little Christmas elf named Jultomtem. He lives under the boards in a barn or attic and only comes out at Christmastime.

He's a funny little elf with a pointed cap and a bright red coat. And when he has to travel very far, he sometimes rides a goat. But to the little children of Sweden, he's just about the nicest elf there is.

At Christmas, Jultomtem sneaks into the house and brings surprise gifts to all the little boys and girls. Sometimes he puts them under the tree like Santa does. And sometimes, because elves like to play tricks, he hides the gifts under cushions to make them more fun to find.

Learn about the Bearin' of Gifts with Winnie-the-Pooh and his friends

There are many things
about Christmas in Germany
that are the same as here in America.
Every German family decorates a
Christmas tree and they sing
many of the same Christmas Carols
that we do.

But one thing is different.
The little German boys and girls
receive their toys and gifts
at Christmastime not from Santa
but from Kriss Kringle.

Kriss Kringle has blond hair and wears a white robe and a gold crown. He's helped by St. Nicholas who carefully watches the children to see if they've been bad or good. If they have been good, there will be toys and gifts under the tree. But if they have been bad, the children will find some switches, too, and they'll know they have to try harder to be good during the coming year.

Learn about the Bearin' of Gifts with Winnie-the-Pooh and his friends

Though Mexico is one of our closest neighbors, it is a country with one of the most unusual methods of distributing gifts. This is the Pinata, an earthen jar that's decorated to look like an animal. It's filled with good things like candies, nuts and toys and then hung from the ceiling.

When a Mexican family has a Christmas party, there normally is a procession in which everyone carries a candle and acts out the Nativity. Afterwards the children are led to the room where the Pinatas are hung.

Each boy and girl is blindfolded and given a stick to swing at the Pinatas. When one of the Pinatas is hit, it breaks open and the candies and toys shower down on the children.

has done with the GRAMMA© DOLL idea

..it's one of the highlights of this 1972 Wish Book

Several years ago, Sears introduced the Gramma and Grampa© Dolls. They were so warmly received by our customers that we are presenting a new collection of home fashions for children inspired by these wonderful Dolls and designed specially for us by their creator, Miss Joyce Miller.

polyester knit polo shirts

popular because
they're comfortable
and nicely detailed
..come in luscious colors
..need no ironing
..are priced to please

(1 and 2) Choose either the short-sleeve or the long-sleeve version . . or buy them both. Each is as pretty as possible. Fine-quality polyester knit with a pinpoint texture. They're pullovers with a pointed collar and a front button-placket opening. Other details worth noticing: stitched-down cuffs on the short-sleeve style; a square bottom to tuck into or wear out over pants and skirts. They're so easy-care: just machine wash, warm temperature; they'll need no ironing if tumble-dried. So easy to buy . . just use the telephone.

Sears Best

Special construction lets you select 1 roller at a time without losing any mist

Exclusive at Sears

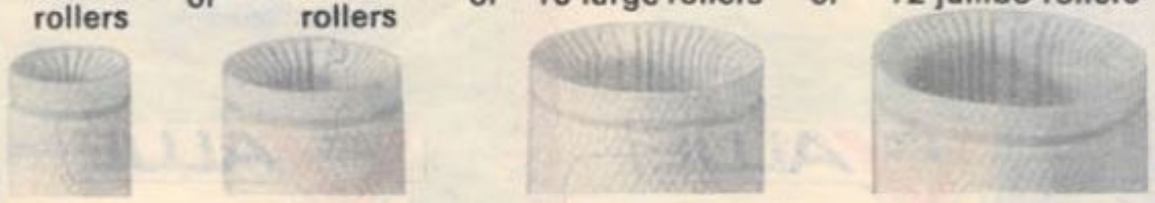

New! Create-a-Curl..

The Instant Hairsetter that leaves the size of the curl up to the girl

Unique grooved roller parts adjust to make:

30 small rollers or 20 medium rollers or 15 large rollers or 12 jumbo rollers

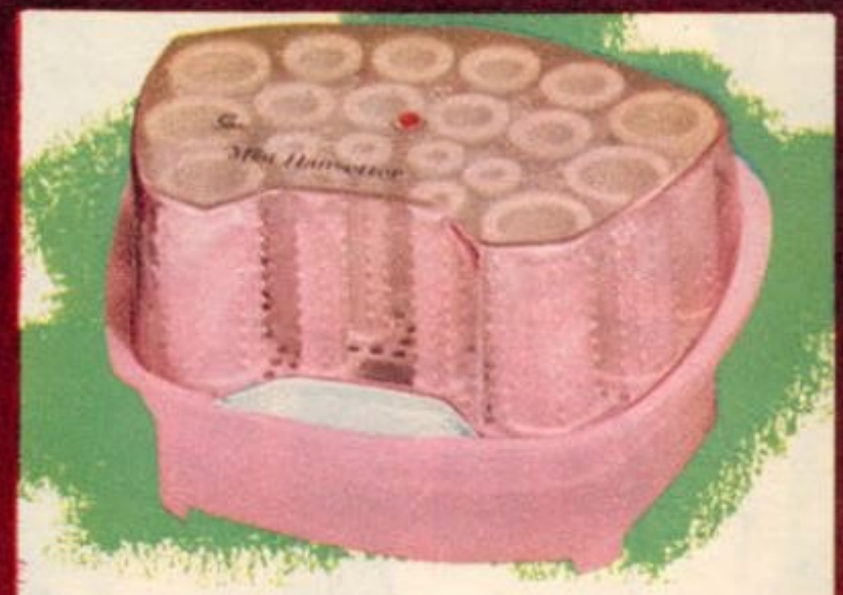

. . or you can create many combinations of the roller sizes you want

The most versatile Instant Hairsetter we've ever sold! Exclusive adjustable rollers let you determine the exact size of your curls—so the hair style you set is as individual as it can be. For a casual look, assemble a selection of jumbo and large rollers. For a curly look, try small and medium rollers. Specially-textured rollers hold hair in place—prevent pulls, tangles and snarls. Choose from 2 setting methods: lotion mist or mist set. *Lotion mist* gives a long-lasting hairdo, helps correct dryness, split ends. *Mist setting* coaxes a bevy of curls.

For lotion mist, mix conditioner with ordinary tap water. For mist, add tap water to unit base. Dot shows when rollers are ready. Storage compartment holds clips, 1-oz. bottle of conditioner . . enough for 15 sets. Flexible plastic roller parts. Self-contained plastic carry case. On-off switch. 450-watts.

Cut $5 . . The Astrolon Watch

It's main functional parts are Noryl-Delrin-Macrolon plastic . . an extremely lightweight, durable, self-lubricating material. Tests show that because movement is so lightweight, its shock-resistance is considerably increased; and watch, therefore, has a longer life and greater accuracy than conventional watches at a comparable price.

11 Chrome-plated base metal case has plastic see-through front and back to let him view inner works. Sweep hand. Shock-and-water-resistant Swiss movement. Black leather strap.

How to measure for proper fit for pages 200 to 205
For Sport Coats, Outerwear, Rainwear order your suit size. If suit size is not known, measure around chest over shirt under arms and across shoulder blades. Keep tape firm and level. Chest measurement plus 1 inch should equal suit size. (Example: ½ inch goes to next higher size—40½ inch chest = 42 Suit Size.)

There are four easy ways to order from this catalog

1 **Shop By Phone**—You'll be pleased at the ease and convenience of ordering from Sears Catalog by telephone. So call today—it's the easiest way to shop. Phone your Easy Payment and Sears Revolving Charge Account orders, too.

Have your order delivered directly to your home or pick it up at your nearest Sears Catalog Selling Unit.

2 **Shop at Home by Mail**—No matter where you live, Sears is always prepared to offer prompt and efficient service. Just list all the items on a Sears order blank or any plain piece of paper. Print plainly your full name and mailing address. Be sure to include all catalog numbers, descriptions of wanted items and any special information requested.

3 **Catalog Sales Office or Sears Authorized Catalog Sales Merchant**—It's so easy to order through your nearest Sears Catalog Selling Unit. A copy of all current Sears catalogs are available in each office for your reference. In addition, a complete supply of FREE Specialized Catalogs are also available for the asking.

4 **Retail Store Catalog Sales Department**—Friendly sales people are always willing to help you when you shop in person or by phone. Each Sears Retail Store has a Catalog Sales Department where trained sales people will help you make a selection and write your order. Many units have samples of merchandise on display.

CREDIT TERMS—See Sears Big Book or any Sears Retail Store or Catalog Selling Unit for information on Sears Credit Plans

HELPFUL INFORMATION ABOUT YOUR SEARS CATALOG ORDER

WHEN SEARS SAYS "SAVE" YOU REALLY SAVE

Now, as for years, Sears shows price cuts or savings only on those items we list in our own catalogs. With these items, we always state the actual "was" price or other basis for savings. If the description for an item in this book does not include such a statement, that item is offered at our regular low price.

C.O.D. MAIL ORDERS—We strongly urge you NOT to order C.O.D. . . Such orders involve high extra charges to you

When ordering by mail, it is to your benefit to send a money order, check, or use Sears Credit Terms. See Sears Big Book for details on extra charges involved on parcel post and freight-express C.O.D. shipments.

We do not ship C.O.D. orders for live animals or birds, perishable goods or for merchandise cut, engraved, printed or made to order; for merchandise shipped direct from factory or shipped to foreign countries or to anyone other than the person sending order.

SEARS SHIP-A-GIFT SERVICE

This service is the easiest way we know to send your catalog gift order to anyone in the U.S.A. or in over 50 countries. Just give us a call and tell us where you want the item sent . . we'll send it direct to the recipient for you. See page 265 for full details.

CATALOG ORDER BASE PERIOD PRICE INFORMATION

Sears supports the Price Stabilization Program and its objective of bringing down the rate of inflation. Maximum selling prices at Sears are determined on an item basis by applying the "Base Period Markup" to the latest acquisition costs charged Sears by its suppliers in accordance with Economic Stabilization Regulations.

The required Base Period prices are listed in Sears General Catalog and are also available for review in all Sears Catalog Selling Units. For information regarding this list, or for information regarding the Base Period price of any item not in this listing, fill in a Base Period Price Information Request Form available in our General Catalog or at any Sears Catalog Selling Unit and give the form to any salesperson or mail to Sears, Roebuck and Co., D/101, at the address on the cover. You will receive a prompt reply by mail.

YOU ALWAYS GET OUR LOWEST PRICES

Whenever any Sears catalog item is reduced in price in a Sears sale book or value supplement which is current with the catalog you are using, your order will be filled at that reduced price. Prices in this catalog apply only to orders placed by mail, telephone, telegraph or placed in person at a Sears Catalog Sales Office, Authorized Catalog Sales Merchant or at a Catalog Sales Department in a Retail Store, Retail Catalog and Appliance Store or in a Sears Affiliated Store.

Except where stated otherwise on specific items, prices quoted in this catalog do not include charges for transporting goods from our distribution centers to a Sears selling unit for pick-up, or for delivery to your home.

SHIPPING INFORMATION

Catalog numbers ending with "N" (as F28—61234N) are sent by motor freight or express. Shipping and delivery charges are based on distance, weight and classification. See rate tables in our Big Book or write to your nearest Sears Catalog Order Plant or Selling Unit to determine approximate charges. For mailable items, allow shipping charges from your catalog order plant.

PARCEL POST INFORMATION

Packages weighing up to 70 pounds and measuring not more than 100 inches in length and girth can be sent by parcel post in all parcel post zones, except catalog numbers followed by "L".

"L" items (as 9 N 2186L) cannot be mailed from a first class post office to a first class post office for city delivery in any parcel post Zone. (This does not apply to rural route addresses.) Your Catalog Plant is served by a first class post office. Your Postmaster or carrier can tell you if you are served by a first class post office.

Catalog numbers ending with "N", "N2", "NH", etc. are unmailable.

SEARS GUARANTEE—Satisfaction Guaranteed or Your Money Back

Whatever you buy at Sears, you have the right to use it for a resonable time before you decide you think it is satisfactory and want to keep it. If you decide it is not satisfactory, return it to us at our expense. We will do whatever is necessary to correct the cause of your dissatisfaction. If we can't satisfactorily provide a remedy, or if you request a refund, we will refund your full purchase price including any delivery and finance changes.

SEARS PLEDGE OF FAIRNESS

If, after you have decided to keep your purchase, it doesn't give you the service or performance you reasonably expect of it and there isn't a specific guarantee on the item that will satisfactorily correct the problem, please let us know. We want to make an adjustment that you will consider fair.

Sears

Revolving Charge Account

With a Sears Revolving Charge Account all you do is pick up a phone—call Sears and say "Charge It"! It's that simple..

No money down or minimum purchase required when you use your Sears Credit Card. If you wish; pay your charge each month within 25 days of billing date (with NO FINANCE CHARGE) or, if you prefer, spread your payments out over months; if you choose to do this, your monthly payments ($10.00 minimum) will go up or down, depending on your balance and a FINANCE CHARGE will be added each month.

We send you a statement of your account every month. Makes bookkeeping so much easier for you—a complete record of your purchases is always available.

You can open your account now—and order later. There is no need to send an order when you open your account . . . open it now—we will send you your Sears Credit Card. You can start using it whenever you wish.

It's easy to start your account—here's how. Simply fill in the application on page 258 and sign the agreement on the following page—depending upon your state of residence as outlined in the "NOTICE" on the following page—send both to Sears. Or you may open an account by telephone—just by calling the most convenient Sears unit. Tell our phone clerk you want to open a revolving Charge Account; she will take your application and your order at the same time, if you wish; or visit any Sears store—they will gladly answer any questions you may have and fill out your application for you.

Maintenance agreements and charges for service and installation of Sears merchandise may also be added to your account.

You never need to figure delivery charges—we prepay them. Sears own people will figure postage, freight or delivery charges on your order—send your package off to you prepaid and add the charges to your account.

You don't need to keep money on hand to pay C.O.D. charges. Because the entire amount has been charged, you don't need to pay our driver. Leave home for the day if you wish; a note will tell the Sears driver to leave your package at a neighbor's.

Picking up your order is easier. No delay or money to pay. Your Sears Credit Card shows you are a "charge customer."

Any Sears Store or office nationwide will accept your Sears Credit Card. Wherever you are in all these United States your credit is good—on vacation, on business trips, in any place there is a Sears unit. Just show your Sears Credit Card. Sears will be glad to take your "Charge" order wherever you are!

Sears Revolving Charge Account and Security
AGREEMENT

Sears, Roebuck and Co., Seattle, Washington.

In consideration of your selling merchandise and services for personal, family or household purposes to me on my Sears Revolving Charge Account, I agree to the following regarding all purchases made by me or on my Sears Revolving Charge Account Identification:

1. I have the privilege of a Charge Account, in which case I will pay the full amount of all purchases within 25 days from the billing date of each statement thereby avoiding any Finance Charge.
2. If I do not pay the full amount for all purchases within 25 days from the billing date of each statement, the following terms shall be in effect:
   (A) I will pay the Deferred Payment Price for each purchase consisting of:
   (1) The cash price, and
   (2) A **FINANCE CHARGE,** which will be the greater of a minimum charge of 50¢ (applied to previous balances of $1.00 through $50.00) or an amount determined by applying a periodic rate of 1.0% per month **(ANNUAL PERCENTAGE RATE** of **12%)** to the previous balance. The **FINANCE CHARGE** is based upon account activity during the billing period preceding the current billing period, and is computed upon the previous balance (new balance outstanding at the end of the preceding billing period) before deducting payments and credits or adding purchases made during the current billing period.
   (B) I will pay for merchandise and services purchased in monthly installments which will be computed according to the following schedule:

If the unpaid balance is:	The scheduled monthly payment will be:	If the unpaid balance is:	The scheduled monthly payment will be:
$ .01 to $ 10.00	Balance	$350.01 to $400.00	$30.00
10.01 to 200.00	$10.00	400.01 to 450.00	35.00
200.01 to 250.00	15.00	450.01 to 500.00	40.00
250.01 to 300.00	20.00	Over $500.00	1/10 of account bal.
300.01 to 350.00	25.00		

I will pay each monthly installment according to the schedule as stated above upon receipt of each statement. If I fail to pay any installment in full when due, Sears may declare the entire balance due and payable and Sears may also repossess any merchandise for which Sears has not been paid in full.

   (C) You are to send me a statement each month which will show my previous balance (last month's new balance), new balance, scheduled payment, Finance Charge, purchases, payments and credits, and the amount of my monthly installment coming due.
   (D) My monthly payment shall be applied on merchandise and services not fully paid for in the ratio that the cash price of each sale bears to the total cash price of all such sales. Ownership of the merchandise purchased on this account shall remain in Sears until I have paid the purchase price in full. I will not sell, transfer possession of, remove or encumber the property without the written consent of Sears. I have risk of loss or damage to merchandise. Upon my default, Sears may charge me reasonable attorneys' fees and collection costs.
   (E) I have the right to pay my entire balance in full at any time without incurring a subsequent Finance Charge.
3. Sears is authorized to investigate my credit record and report to proper persons and bureaus my performance of this agreement. Upon demand, I shall return my Sears Revolving Charge Account Identification Card to Sears.
4. The information furnished on the credit application is submitted to Sears for the purpose of obtaining credit, and I understand that Sears will rely upon this information in extending credit to me. I hereby certify that this information is true, correct, and complete.
   I understand that my Finance Charge and other credit terms will be based on my State of Residence. If I change my State of Residence, I will notify you, and you will provide me with a new agreement containing the Finance Charge and other credit terms applicable to my new State of Residence.

NOTICE TO BUYER: Do not sign this charge agreement before you read it. You may at any time pay off the full outstanding balance under this charge agreement. The monthly finance charge will not exceed the greater of 1% of the outstanding balance (annual percentage rate of 12%) or $.50.

Home Speaker Unit for auto tape players . . with brackets to let you quickly transfer tape player to car or home

Use with ANY auto tape player up to 9 in. wide, 9 in deep and 3½ in. high **$47.95**

Take your tape player with you when you leave your car . . take it with you when you leave your house. You need only *one* player—only *one* set of tapes—whether you're at home or on the road. You get two special slide-out mounts. One mount is already installed in the home speaker. Install the second mount in your car. Then you're all set to quickly remove the player from the car and place it in the home speaker—or vice versa. Player not incl.

Wood bookshelf-type home speaker has a rich walnut woodgrain finish that adds a decorative touch to any room and harmonizes with your decor. Two built-in 5-in. speakers, covered with attractive grille cloth, produce beautiful stereo sound. Unit includes automatic current converter and built-in antenna with external speaker and antenna connections. Dust cover helps protect mechanism from dust, dirt and other foreign material.

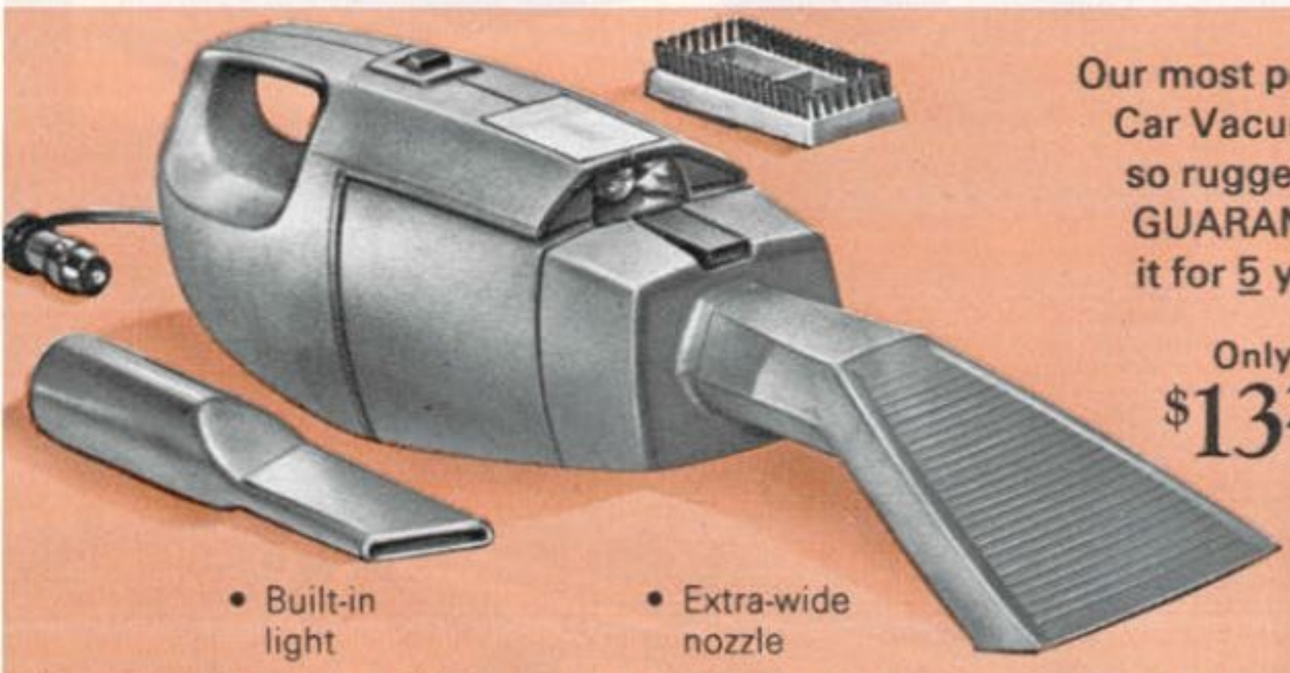

Measures 21⅝x6x10¼ in. deep overall. Operates on regular household current (110–120-volt, 50–60-cycle AC) which automatic current converter changes to the same type of direct current (DC) produced by your car battery.

All-purpose powder Fire Extinguishers for home, office or car

$10.99

Why should such essential items look like they belong in a factory instead of in a home, office or car? They needn't—as Sears has proved by creating this design.

It's packed with fire-fighting power. The 2-lb charge of A:B:C chemical powder smothers grease, oil, gasoline, tar, paint and charged electrical circuit fires. Can also be used on small Class A fires (paper, fabric, wood). Will not conduct electricity; will not spread oil or grease fires. Odorless; will not harm drapes, rugs or upholstery. Fully charged. Shoots powder up to 20 ft. Pressure gauge. Bracket. Rechargeable.

UL listed. Meets Coast Guard Specs. 162.028/EX-1972. Rated 5-B:C. 14x3-in. aluminum shell. Painted white with black antique fire-fighting equipment motif.

Imported Cast Iron Cookware

Cook in it, serve in it . . our exclusively designed porcelain-clad cast iron cookware is the finest we've ever offered. *We've greatly reduced the price of the 8¾-inch sloped skillet (1) so you save while trying out the cookware.*

The shape helps make cookware easier than most to handle . . large easy-to-grasp lid knobs; handles set away from bases; 10-inch skillet offers a teakwood handle and a "helper handle"; 1¼-quart saucepan gives you 2 pouring spouts. Three porcelain firings add lustre. To help it heat more quickly, porcelain has been ground off the extra-flat bottoms, to put cast iron in direct contact with heat so it heats well on any cook top. Interiors are white. Steel lids. From Denmark.

Give her the appliance that's revolutionizing meal planning

Seal meals in boilable bags and they're ready to store in freezer . . ready to be heated and served at your convenience

WISH BOOK VALUE Only $15.44

Improved Sealer with 56 boilable freezer bags (26 more than our previous model included)

Supermarket convenience plus home-cooked taste. Almost anything you can cook can be put in a Sears boilable bag, then sealed and stored in your refrigerator or freezer. Later, when you're ready to serve a party snack or a full course dinner, just drop pouches in boiling water. In minutes your food will be ready with the original flavor and nutrients preserved.

Cook a double batch of your favorite recipe and freeze half of it to heat on a busy day. Use it for saving leftovers; preparing baby formula for traveling; cooking sauces, fudge, puddings, lobster tails, Welsh Rarebit and dozens of others. Sportsmen can use it for sealing matches and bait. The list of ideas in our recipe-instruction booklet is almost endless.

Sealer mounts on wall (screws included) or sits on countertop. 11¼x5½-inch plastic case. Plastic funnel for easy filling, 56 boilable bags, 5½-ft. cord.

7 Each Five Star ball starts with a butyl rubber bladder wound with 50% more nylon than Collegiate-style ball below. Before winding, nylon is triple twisted for strength and heat stretched to resist elasticity so *this ball keeps its official size and weight.*

Computer-controlled winding assures uniform carcass coverage, equal balance and strength in every direction. Finally, 2 vinyl layers vulcanized to carcass give superior shape retention and scuff resistance. Raised seam contours and pebble-grained finish allow finger-tip control. Needle included.

A NOTE ABOUT GEAR RATIOS

LOW GEAR, as in a car, is for starting out and hill climbing. Tires revolve fewer times for each time you pedal. This means resistance is minimal and pedaling is easier.

The lower your lowest gear is, the easier your starts and hill climbing will be.

HIGHER GEARS increase the number of times tires revolve for each time you pedal. Shifting through the gear ratio range will allow you to increase the speed of the bike without pedaling any faster.

The higher your highest gear is, the faster your bike will go with a minimum amount of pedaling.

SHIPPING NOTE FOR BOTH PAGES

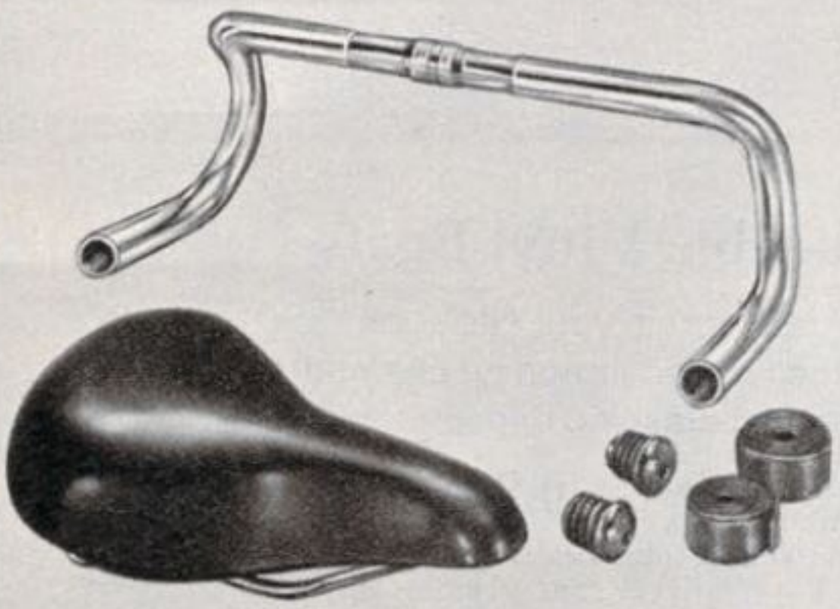

All bikes are sent motor carrier or express in "long packs" . . wheels fully assembled on frame. You need only install seat, pedals, handlebar and kickstand. Most Sears Catalog Sales Offices will arrange for assembly of your catalog-ordered bike for only a small service charge.

Cross-section of mat shows how closely it approximates well-kept green on actual course

$11.99

Game provides hours of fun . . and helps you improve your putting skill, too. Object throughout game is to sink ball in the first of six cups. Directions printed inside each cup tell where on mat to place ball for approach and putt shots.

Sink ball in first cup for best-positioned lies; miss and ball drops in any rear cup, which penalizes you with poorer lies. First hole is played as par 4, each successive par is set by the winner of previous hole. Roll of green can be shaped by placing objects underneath flexible green mat—increases difficulty as you improve. Instructions included. Putter and ball not included.

Our exclusive TR VII Fish Call attracts fish with light, sonic sound, and attractor pellets

Actual photo, taken during tests conducted by Jacques Cousteau's group company, the Center of Advanced Marine Studies, in Marseilles, France. Documented results prove that TR VII Fish Call attracts fish. Immediately before this shot was taken, there were no fish in call's vicinity. Minutes after call went into operation, these fish swarmed to area.

Call operates 3 ways for maximum effectiveness—emits sonic sound and light, and includes attractor pellets. Especially effective when all 3 techniques are combined, since all fish are not attracted by the same method.

To use, simply drop clear plastic transducer into water. One battery sends out sonic sound waves; seven-point selector dial allows you to choose desired sound frequency from 10-100 C.P.S. Second battery activates light. (Bulb is guaranteed for lifetime of fish call.) Non-toxic pellets included.

Use in both salt and fresh water. While fish call will successfully attract fish to your area, you still must use your skill to catch them.

Electronically transistorized. Control box is 1x1½x4 inches. Operates on 2 penlite batteries; included. *"Secrets of Successful Fishing"* booklet and instructions included. NOTE: For legality in your state, check with Wildlife and Fisheries or State Conservation Departments before ordering.
6 N 39247—Shipping weight 10 ounces **$9.95**

- Sounds a beeper, flashes light when fish swim thru electronic depth pattern
- Quick check of dial tells you the depth of fish

$169.00

With use, you'll soon be able to tell type of bottom you're over, identify a school of fish or a single one, and recognize what type of underwater obstacles are near. Can be pre-set to beep at certain depths for fish-finding or as a navigation aid.

Reads to pinpoint accuracy up to 120 ft.; reads up to 240 feet under favorable conditions. Effective even thru ice. Compact, 6x8½x6½ in. high . . weighs less than 5 lbs. without batteries. Completely enclosed, splash-proof plastic case. Transducer, gunwale mounting bracket. Runs on 2 six-v. dry cell batteries; not incl.—see below.

TEDDY BEARS are for love..

They're a cuddly mixture of loyalty and security. For over 70 years they've been listening happily to all the childhood confidences and sympathizing quietly with the disappointments. Teddies are like that. The name "Teddy" came from a 1902 cartoon of Teddy Roosevelt refusing to shoot a bear cub. It was called "Teddy's Bear." Since then thousands of owners have discovered that a Teddy belongs in every childhood.

GOLDEN WONDER OF

A Step-by-Step Play and Learn Program

Your baby has a lot to learn . . and he needs your help. He's counting on you to provide appropriate tools of learning for each stage of his development. That's why a research team, led by Dr. Esther P. Edwards, created this step-by-step play things program. Each set of toys was designed to encourage some particular skill, to help your child reach his full potential.

STARTING AT BIRTH

Your baby is beginning to see things—but it's tough to focus

One of the best ways to help him develop eye control is with moving, changing objects he'll enjoy focusing on

(1 thru 3) Set includes: (1) Crib Mobile with sun, moon and stars for eye-catching variation in form and color. Plastic; ceiling hook. (2) Butterfly Crib Plaque . . a plastic frame with 8 "picture" cards to slide in and out. Cards show different colors and patterns to keep baby fascinated. (3) Book for mother. Wt. set 2 lbs. 8 oz.

49 N 44551—(1 thru 3) .Set **$4.99**

STARTING AT 3 MONTHS

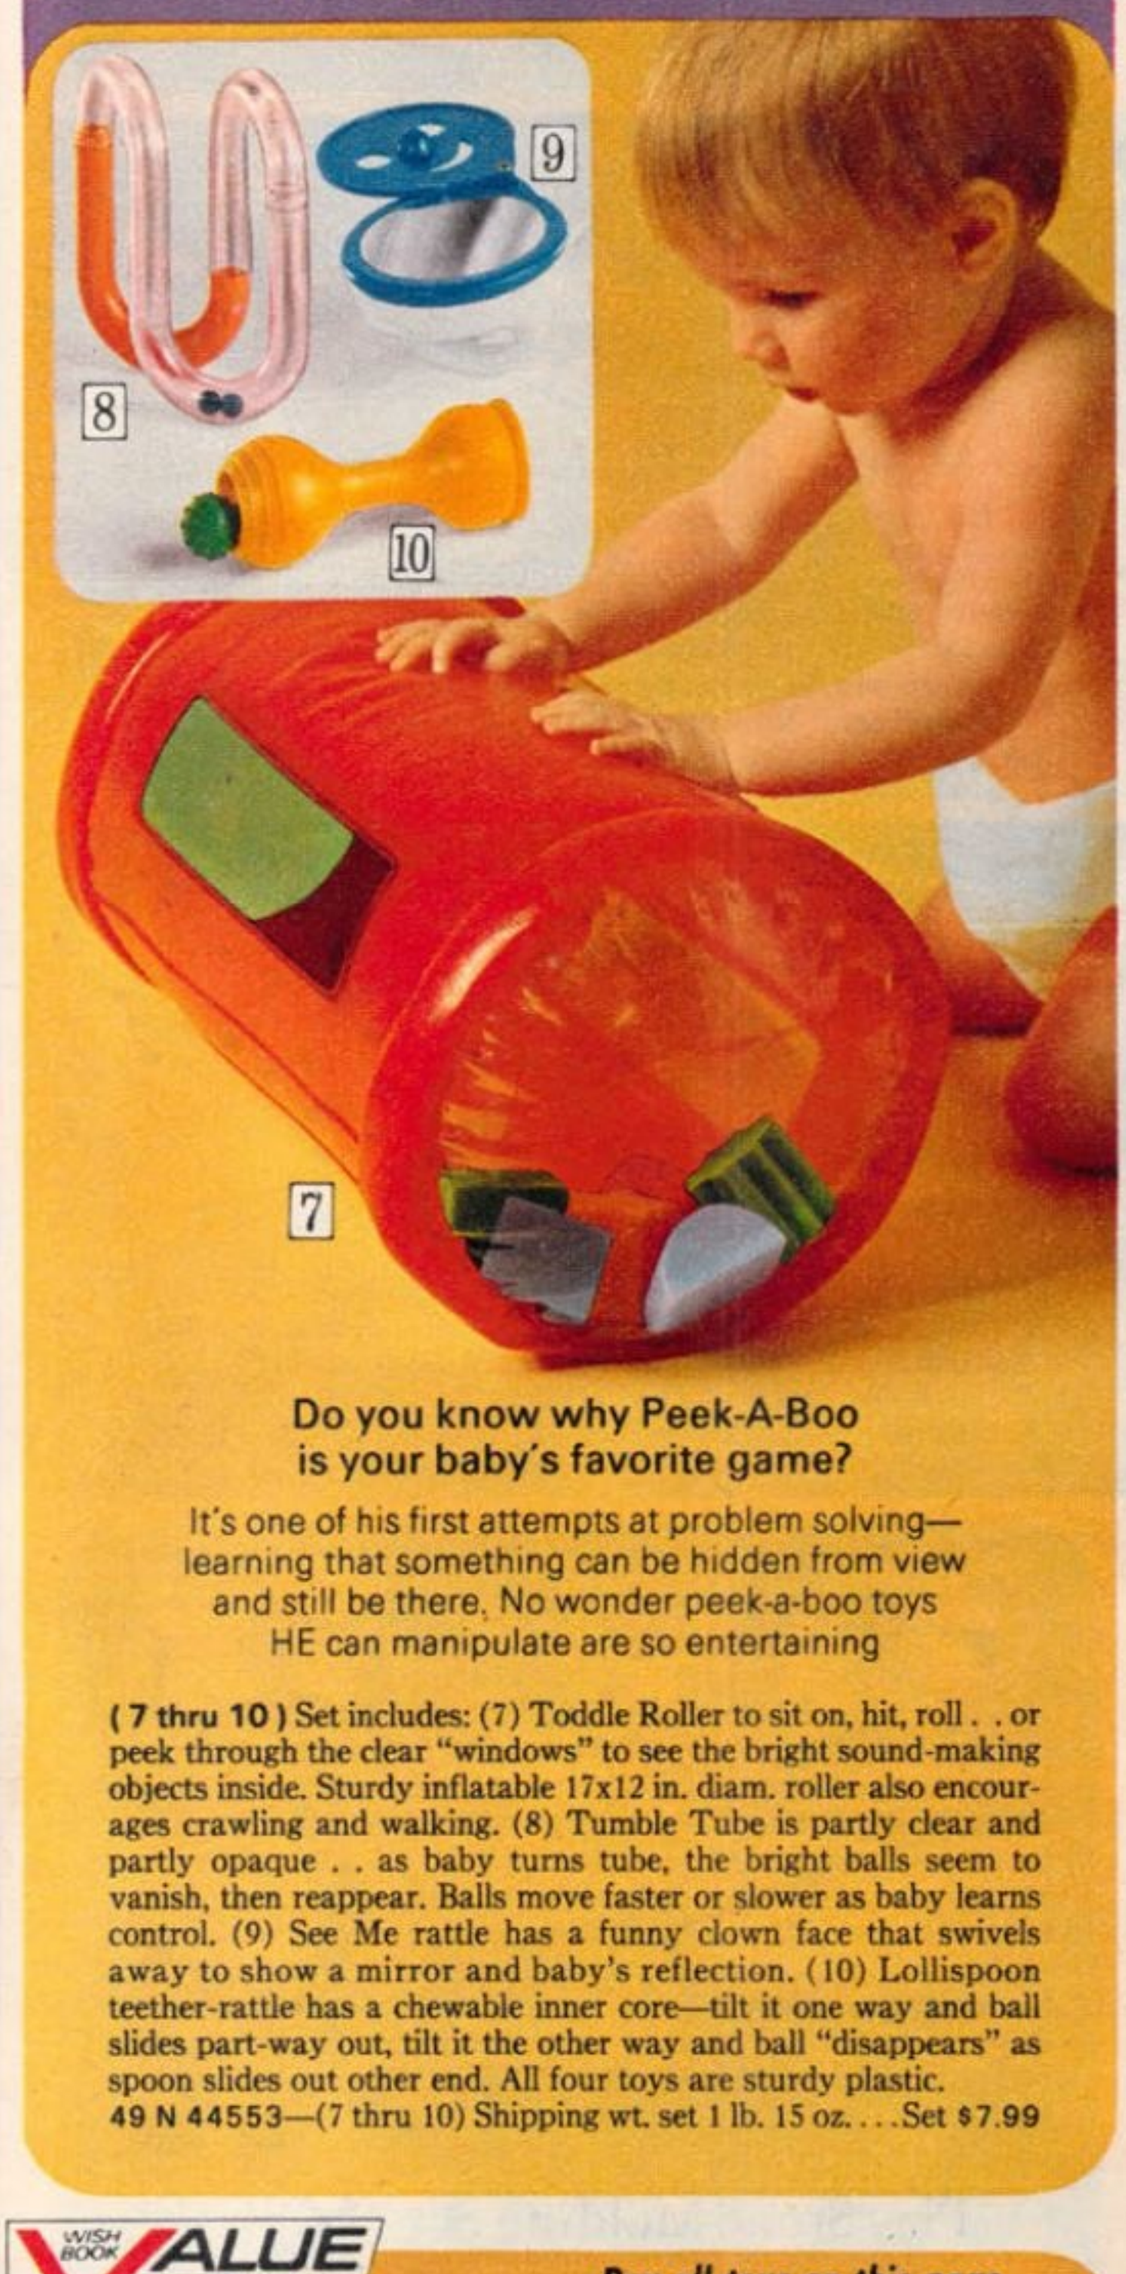

Happiness is picking something up—all by himself

Give him easy-to-handle toys with interesting-feeling shapes and textures to encourage touching and grasping, improve strength and dexterity

(4 thru 6) Set includes: (4) A Coordinator Crib Gym with differently shaped and colored parts to pull on and jingle. Colorful plastic and plush parts detach for cleaning or rearranging. Straps adjust for crib or playpen. (5) Three Tender Teethers to feel, suck and push against to relieve teething discomfort. All boilable plastic; non-toxic; and easy to grasp. (6) The Touch Much rattle has a variety of fabric textures to explore, feel and compare; jingles too. Plastic handle. Wipes clean.

49 N 44552—(4 thru 6) Wt. set 1 lb. 13 oz. . . .Set **$7.99**

STARTING AT 6 MONTHS

Do you know why Peek-A-Boo is your baby's favorite game?

It's one of his first attempts at problem solving—learning that something can be hidden from view and still be there. No wonder peek-a-boo toys HE can manipulate are so entertaining

(7 thru 10) Set includes: (7) Toddle Roller to sit on, hit, roll . . or peek through the clear "windows" to see the bright sound-making objects inside. Sturdy inflatable 17x12 in. diam. roller also encourages crawling and walking. (8) Tumble Tube is partly clear and partly opaque . . as baby turns tube, the bright balls seem to vanish, then reappear. Balls move faster or slower as baby learns control. (9) See Me rattle has a funny clown face that swivels away to show a mirror and baby's reflection. (10) Lollispoon teether-rattle has a chewable inner core—tilt it one way and ball slides part-way out, tilt it the other way and ball "disappears" as spoon slides out other end. All four toys are sturdy plastic.

GROWING PLAYTHINGS

for your baby's first three years

All ages suggested throughout this section are simply guidelines . . use your own judgement in selecting toys appropriate to your child's age, readiness and level of learning. Generally, the fun and play value of the toys extends many months beyond the ages indicated. The program is flexible—you can start at any time, with the groups of toys that your child is ready for

STARTING AT 9 MONTHS

11

12

In feeding himself or handling a toy . . his intentions are better than his aim

At this stage, your baby needs toys that help develop his coordination . . toys he can open, move around, fill and empty out

(11 and 12) Set includes: (11) the Smart Cart . . a treasure of devices to fascinate and challenge baby. It's a pull toy that makes noises, and a standing toy with knobs, buttons, a sliding door, "secret" drawer, mirror, "hidden" funny face, squeaker and a chime tumble wheel. Plastic cart is 8½ inches long. (12) "My Do-It Pocket Book" comes with 10 full-color cardboard pictures to insert . . or fill the pages with your own pictures, flowers or whatever the baby likes to look at. Each of the 6 clear plastic easy-to-turn pages is a pocket that holds his favorite things—what a great way to encourage a little one to explore, open, close and turn the pages. So easy to buy when you just use the phone.

Your Baby's learning to express himself verbally and mechanically

A cuddly dial phone to encourage interest in imitating sounds; and a smiling load-and-unload toy to improve dexterity

(13 and 14) Set includes: (13) the Elephone . . a very special phone to talk to and love and learn from. Plush elephant has a trunk that holds the receiver and a plastic numbered dial that turns and rings. 10 in. tall. (14) Bowls and Balls is a cheery stacking toy or a set of nesting cups. The 6 color-coded balls can be dropped into canister through the funnel-shaped cup, or through the hole inside of "hat". Offers unlimited ways to explore space. Plastic; 8x6 in. Wt. set 2 lbs. 4 oz.

STARTING AT 18 MONTHS

What can a Toddler Build with Blocks? Self-expression and creativity

Help him express his ideas with bright building blocks . . and expand his ideas with imaginative storybooks

(17 and 18) Set includes: (17) a child-size library of Look-and Learn Books and Posters. The 8 books have simple story lines with lots of animals, children, nursery rhymes and numbers. The two 14x20-inch double-sided, tear-resistant posters of wipe-clean plastic show 4 colorful scenes of zoo and city and home. They teach names of animals, parts of the body . . over 80 words 'n pictures in all. Then, help your toddler build his own scenes and "houses" with (18) the Blox Box . . a set of 13 bright building blocks. They're a variety of sizes, shapes and colors; largest block is hollow and open on both ends so smaller blocks fit into it and "disappear." Tilt big block and smaller ones tumble out. GROWING PLAYTHINGS™

A Step-by-Step Play and Learn Program for your baby's first three years

STARTING AT 27 MONTHS

What's the difference between big and small, round and square—and how are they alike?

These building blocks and picture puzzles help a child discover the fascinating world of sizes, shapes and colors. By piecing the objects together, he becomes aware of their differences and relationships to each other

(22 and 23) Set includes: (22), a colorful group of 9 hollow Nest 'n Build Blocks to stack or "nest" inside each other. Child learns to distinguish sizes and shapes by fitting 2 triangles inside a square, 2 squares inside a rectangle, and all the blocks inside the big cube. Sturdy plastic. Also includes (23), three 9x12-in. long Pick-and-Play puzzle panels showing home, farm and city scenes, and eighteen 3-dimensional plastic pieces. Child can fit pieces into panels to complete scenes or remove them for separate play.

SEE DISTANT MOUNTAINS, MOON CRATERS, EVEN SATURN'S RINGS FROM YOUR BACKYARD

REFRACTOR TELESCOPES give you a great view of the land and the heavens. Light is gathered into the telescope tube by the large objective lens. Eyepiece lens magnifies this light and directs the image straight into your eye.

The larger the OBJECTIVE LENS, the more light it gathers—a 60mm lens gives you a brighter image than a 50mm lens. Our objective lenses are ACHROMATIC-COATED to help cut distortion and eyestrain. The FOCAL LENGTH of the objective lens also makes a difference—the longer the focal length the more detail you can see.

Change magnification by changing EYEPIECE. A 6mm eyepiece is more than 3 times more powerful than a 22mm eyepiece. Also includes an ERECTOR PRISM that makes the normally-inverted image appear upright.

Equatorial mount has pan and tilt knobs that let you track moving objects without touching telescope

Telescopes (1) and (2) include a Barlow lens to increase the magnification of the eyepiece
